

Reproducible Workflow

Jeppe Johansen

First slide

-
- What is reproducibility?
 - Why does it matter?
 - This slide show goes through the major considerations for getting a reproducible workflow.

-
- The structure of a project
 - Macro level: Back ups, sharing, avoiding *It doesn't run on my computer*
 - Micro level: How are files structured.
-

```
<YOUR PROJECT NAME>
/data
/src
/output
/manuscript
Make
references.bib
requirements.txt
README.md
.gitignore
```

lars. What.
